

MULTI-PEDAL

FOOT SWITCHES

▲ LINEMASTER® offers a wide variety of multi-pedal foot switches to meet various industrial and medical applications. Models range from the light duty Treadlite II and Compact to the robust Hercules and Explosion Proof models. Full guards are available for multiple foot switch models for that added protection. Available in twin, triple, quadruple and quintuple models to support applications that require many different functions to be performed. These Multi-pedal switches have the look and the touch that you need. Only from LINEMASTER® - American made innovation at work.
