# (USB) UNIVERSAL SERIAL BUS

## F O O T  S W I T C H

◣ Linemaster has entered the world of USB, offering various wired and wireless Universal Serial Bus foot switches to suit most applications. Many new applications involve the integration of controls into a PC and Linemaster now provides a compatible foot switch. Perform multiple functions like emulating a mouse or keyboard keystroke with your feet while freeing up your hands to perform additional operations. Linemaster'r USB foot controls are supplied pre-programmed to the customers specs and are ready for use straight out of the box. Life is easier with a USB connection, it is as simple as plug and play. Only from Linemaster, American made innovation at work.
